REASONS FOR ALLOWANCE

Claims 1-2, 4-9, 13, 15 and 18-25 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art fails to teach or fairly suggest an automated liquid handling system comprising a first dispensing tip container and a second dispensing, each having a plurality of holding portions for holding dispensing tips. Each of the holding portions being arranged in a matrix form defined by rows and columns. The system further comprising a dispensing head having attachment portions to which the dispensing tips are attached and a moving mechanism that moves the dispensing head. The system further comprises a first reagent container, a second reagent container and a microplate formed with a plurality of wells for holding specimen. The system further comprises a control device that controls the sucking and expelling operations performed by the dispensing head and also controls the moving mechanism to control movements of the dispensing head. The control device further includes an input portion for inputting one or more processes to be executed by the dispensing head, the process including information regarding a dispensing direction on the matrix form to dispense the reagent into the wells of the microplate, and information regarding a range of the wells on each of the rows or each of the columns into which the reagent is dispensed, and a determining section that determines an arrangement of dispensing tips to be set at the holding portions of the first dispensing container based on the inputted information. The system further comprises a display for indicating the arrangement of the dispensing tips determined by the determining section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
